Accommodations and Offshore Products Remain Strong

Following are the key takeaways from the presentation made by Oil States International at Calyon Energy Conference 2008 in New York today.

Accommodations Business Expanding. Oil States indicated that the company's accommodations business in the oil sands region of Alberta is performing well. The company's expansion efforts in this business are on track. While we expect 2Q08 to show a seasonal decline due to the spring break-up in Canada, this business is expected to show strong year/year growth on the back of increased capacity. The company reinforced our view that the royalties in Alberta will not materially impact the growth in mining activity in the region.

Deepwater Capital Equipment Holds Potential. The company's deepwater capital equipment market is expanding. Current order backlog in this business is approaching \$400 million. Demand for floating production facilities and subsea pipelines will drive the growth in this business.

North American Uptick. The company's other North American businesses such as land drilling and tubular services are showing increased activity due to the recent rally in commodity prices. The company is adding two new built-for-purpose rigs to its fleet. Utilization in the U.S. land drilling business is expected to increase in the U.S. versus previous quarter.

Improving Growth Outlook. With strong growth expected in the accommodations and offshore products businesses and improving outlook in the U.S. land drilling and tubular services businesses, we believe that Oil States will show significant cash flow growth in the future. We maintain our ADD rating on the shares.

IMPORTANT DISCLOSURES

Analyst Certification

I, Mark Urness, hereby certify that the views expressed in this research report accurately reflect my own personal views about the securities and/or the issuers and that no part of my compensation was, is, or will be directly or indirectly related to the specific recommendation or views contained in this research report. In addition, the analysts included herein attest that they were not in possession of any material, non-public information regarding the subject company at the time of publication of the report.

Oil States International was covered by Karen David-Green until August 12, 2005, when Calyon Securities (USA) Inc. dropped coverage following the departure of the analyst. Mark S. Urness initiated coverage on June 22, 2007.

The member and/or analyst(s) involved in the preparation of this report have reason to know that an affiliate of Calyon Securities (USA) Inc. received compensation from Oil States International Inc. for non-investment banking products/services in the past 12 months.

Valuation Methodology

Our 12-month price target of \$56 for the shares of OIS is based on an 11x P/E multiple applied to our 2009 EPS estimate of \$5.10.

Risk to Target

Risks to our price target include the potential for global economic weakness, which would lead to slower oil and natural gas demand growth, lower oil and natural gas prices and reduced upstream capital spending. In addition, reduced activity in the oil sands region of Canada may also impact our estimates.

RATING RECOMMENDATIONS (based on anticipated returns over a 12-month period): BUY, above 20%; ADD, 10%-20%; NEUTRAL, +/-10%; REDUCE, negative return, but by less than 20%; SELL, negative return of more than 20%. **OVERALL RATING DISTRIBUTION** for Calyon Securities (USA) Inc., Equity Universe: BUY/ADD - 68%, HOLD - 29%, REDUCE/SELL - 3%, Restricted - 0%. Data as of March 31, 2008. **INVESTMENT BANKING CLIENTS** as a % of rating category: BUY/ADD - 20%, HOLD - 3%, REDUCE/SELL - 0%, Restricted - 0%. Data for 12-month period ending March 31, 2008. **FOR A HISTORY** of the recommendations and price targets for companies mentioned in this report, please write to: Calyon Securities (USA) Inc., Compliance Department, 1301 Avenue of the Americas, 15th Floor, New York, New York 10019-6022.
